#### FAQ:

##### Q1 How long will the 100% human hair last?

The hair can last for a very long time, it depends on how you maintain it.  
If you treat it like your own hair and take good care of it, then it will last longer.

##### Q2 Why my hair extensions are getting tangled?

Your hair Extensions are getting tangled due to dryness. Make sure to wash your hair at least once a week, twice a week is better. To avoid tangling while you sleep, wrap hair up with a satin scarf or use a satin sleep cap or a satin pillow case to prevent friction.

##### Q3 Why does my human hair shed badly?

Generally, the hair weft doesn't shed. You can check it before you install. But some hair maybe shed after you install, you will ask why. First, some person like narrow-toothed comb, if you don't comb your hair gently, it will shed easily. Second, if you cut the weft many times when you install the hair, the hair will shed easily from the place where you cut, you'd better put some glue in the cut edge.

##### Q4 Why the colors of hair extensions don't seem exactly as the pictures show or description says?

Different monitor have different displays. The same color number may have a little color difference. You could dye the Hair Wholesale if you need different colors.
